Please help! (See overleaf to find out how)

Please can you help us to continue to provide our many blind and partially sighted members with two monthly magazines on CD, SD card, memory stick and a web service? Subscription to the magazines is free of charge to members and associate members, and free to anyone by listening online or via our phone app which is available on all platforms. We need help with our production costs.

One magazine, National Talking Express, provides information of general interest to visually impaired people. The second magazine, Media Round-up, is unique in providing information and advice to blind and partially sighted people on using technology, much of it menu driven which makes it difficult for them to use.

We appeal to you to make a donation by cheque or crossed postal order, made payable to NATIONAL TALKING EXPRESS. CAF donations welcome. You can also give via Paypal - <https://paypal.me/ntexpress/5/> If you make purchases online, please consider joining Easy Fundraising at <http://www.easyfundraising.org.uk> and choosing us as the charity you are supporting. This costs you nothing but if you go to their sites via the Easy Fundraising gateway, retailers will donate a percentage of the cost of your purchase. Use Easy Search as your search engine instead of Google or similar - <http://ntexpress.easysearch.org.uk/> Then, if you choose our charity, we will also receive money at no cost to you.

We are registered with the Fundraising Regulator.
